## Disclaimer

This security survey has been conducted by Tharros Security Solutions. The information contained herein is based on the guidelines set by the Ohio Crime Prevention Association's CPTED courses and the observations of the Crime Prevention Technician conducting the survey. This survey is intended to assist in improving the overall level of security only. It is not intended to imply that the existing or proposed security measures are absolute or perfect.

All new construction, retrofitting, or installations should comply with existing building, zoning laws, and fire codes. Licenses and variances should be obtained, and inspections should be conducted by the city in which the property being assessed is located or other certified authorities.
